

TrumpRx & GoodRx: The Patient Journey to Lower Cost Medicines

- You are prescribed medication by your physician.
- Your physician sends your prescription to your preferred pharmacy.

- Before you go to pick up your prescription, you search for your medication on GoodRx or TrumpRx and see the price across all listed pharmacies.
- You select your preferred discount and download or print a coupon from the site or visit the referred manufacturer site.

- You present the coupon at your pharmacy.
- You pay with cash or credit and receive your medication.
- The cost for your medication may be less than your insurance copay or not. **YOU** must compare.

- Pharmacy submits claim to GoodRx.

- TrumpRx/GoodRx does **NOT** process through insurance.
- **You, the patient, receive all savings without a middleman.**

DISCLAIMER: CCPA has consistently emphasized that affordability reforms should be evaluated based on whether they reduce out-of-pocket costs and improve financial predictability for patients. Options such as TrumpRx and GoodRx may help some patients, particularly those without insurance coverage, access treatments they need.
