RE: Medicaid Coverage of FDA-Approved Obesity Medicines

Morning Consult conducted a survey on behalf of the Chronic Care Policy Alliance among 501 registered voters in Alabama. Alabama voters across party lines overwhelmingly view obesity as a serious chronic disease that deserves medical treatment, strongly support efforts to help eligible patients access FDA-approved obesity medicines, and believe Medicaid should play a role in providing coverage. These attitudes translate into a meaningful political upside, with Alabama voters rewarding policymakers who support expanding access to obesity treatment.

Obesity is a Serious Problem

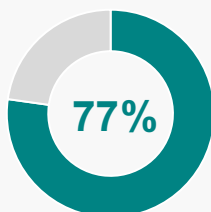

% Total problem (Very + Somewhat)

Obesity is a Major Public Health Concern

- Four-in-five Alabama voters (80%) see obesity as a serious problem in their state, with over one-third saying it is a *very serious issue*, and nearly two-thirds (63%) reporting a personal connection to obesity.
- Nearly three-quarters of Alabama voters (77%) agree obesity deserves the same coverage as other chronic diseases, with roughly two-in-five strongly agreeing (40%).

Obesity is a Chronic Disease That Deserves the Same Coverage as Other Chronic Diseases

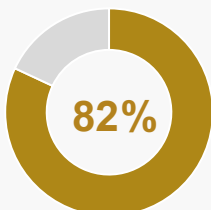

% Total agree (Strongly + Somewhat)

Voters Want Patients to Have Access to Treatment

- Most voters agree all residents, regardless of income or socioeconomic status, should have **equal access to obesity medicines** (82%) and believe **doctors should drive decision-making** (81%).
- Four-in-five Alabama voters (78%) are **deeply concerned that some patients are unable to access FDA-approved obesity treatments** their doctors recommend because their state Medicaid program does not cover them.
- Half of Alabama voters (52%) **view obesity as a chronic disease that should be treated with obesity medicines** – not simply a matter of personal and lifestyle changes (48%).
- Alabama voters reject cost-based arguments against coverage. A majority (57%) believe Medicaid coverage for obesity medicines is **an investment in long-term health** that prevents costly complications and reduces healthcare costs, rather than viewing medicines as too expensive for Medicaid to cover (28%).

All Residents Should Have Equal Access To Obesity Medicines

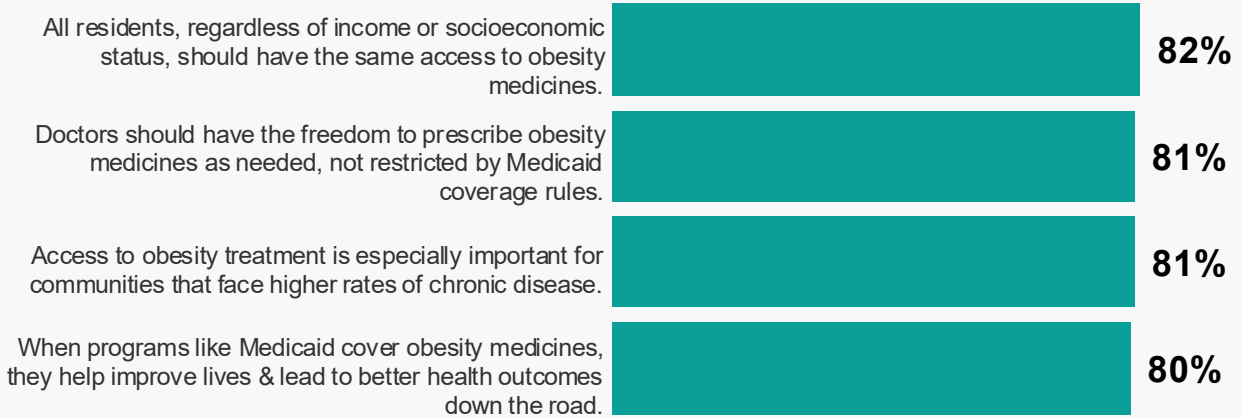

% Total agree (Strongly + Somewhat)

- Underscoring the importance of access, four-in-five voters in Alabama (81%) recognize the **importance of obesity treatment for communities that face higher rates of chronic diseases** and agree that Medicaid **coverage of obesity medicines would help improve lives** and lead to better health outcomes (80%).

Alabama Voter Sentiment on Obesity Medicines

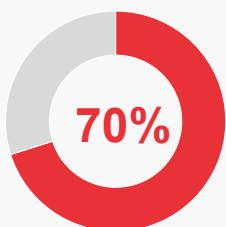

% Total Agree (Strongly + Somewhat)

Medicaid Has a Responsibility to Help Provide Access

- Most Alabama voters (81%) think it is **important for policymakers to provide access** to obesity medicines in their state.
- Most Alabama voters also **support policies that would broaden access for low-income patients** – including **establishing a program in their state** (78%) or **expanding Medicaid eligibility** (80%) – to ensure they have access to obesity medications.
- The majority of Alabama voters (77%) support **their state's Medicaid program providing FDA-approved obesity treatments** for eligible patients.
 - Support for state Medicaid coverage of obesity treatments is strong across party, with majorities of Democrats (82%), Independents (76%), and Republicans (76%) in Alabama backing this coverage.

More Likely to Support Politicians Backing Medicaid Coverage

% More likely to support
(Much more + Somewhat more)

Alabama Voters Reward Policymakers Who Support Medicaid Coverage of Obesity Medicines

- 70% of Alabama voters say they are **more likely to support legislators who back Medicaid providing obesity medicine coverage**, versus just 13% who say less likely.
 - Democrats (83%), Independents (68%), and Republicans (64%) in Alabama are more likely to support lawmakers who back Medicaid coverage of FDA-approved obesity medications.
